Dr. Jonathan S. Dela Peña, Phd.
Schools Division Superintendent
Department of Education – Cagayan de Oro

Dear Dr. Dela Peña:

Re: STREAMS Invitation to Join Supplementary Training

Greetings of peace!

STREAMS- Pathways to Higher Education is a student-led education development program under the Student Activities and Leadership Development - Office of Student Affairs (SACDEV-OSA) that aims to extend academic help to financially underprivileged but academically-gifted public Grade 12 senior high school students in Misamis Oriental and Cagayan de Oro City in an effort to increase their chances of being admitted to college.

STREAMS brings together 30 of the most promising Grade 12 students to a weekly academic enrichment program (held at XU) consisting of enrichment classes and advanced sessions in English, Filipino, Mathematics, Biology, Chemistry, Physics and Business Management. STREAMS also conducts personality development through series of activities, seminars and training that help participants discover their potentials, acquire new knowledge and eventually enhance their individuality and uniqueness.

Further, the program shall seek scholarship opportunities for the participants towards the end of the academic year. STREAMS also aims to incite the spirit of volunteerism and social responsibility to its members and the surrounding school community. The members of the program considers Education Reform as the focus of its organizational purpose and operation.

With this, we are requesting if you could endorse us to all public high schools that are adapting to the K-12 paradigm. Your endorsement will be of great help to sustain the journey that started fourteen years ago with the vision of building a brighter future for the Filipino youth in Cagayan de Oro City and its neighboring municipalities in Misamis Oriental.

Should you have questions, clarifications, or other concerns, please feel free to contact the undersigned at +63 967-578-916 or through SACDEV-OSA office at (088) 853-9800 or local 9245/9246.

Thank you very much and we hope for a favorable response from you.
