RELEASED
from Records Section

No: CDD-401
Date: 2/27

Dear **Dr. Dela Peña**,

Greetings in peace and goodwill!

Over the years, the Neglected Tropical Diseases (NTDs) in the Philippines have become primary public health problem as they continuously affect people, mostly, the poorest section of the society. One of the most effective strategies of control of NTDs is the Mass Drug Administration particularly on Schistosomiasis, Intestinal Helminths and Filariasis.

In line with this, the Department of Health –Center for Health Development Northern Mindanao will be conducting an NTD Updates, Focal Survey Orientation, Program Policy Review and Data Validation on Harmonized Schedule and Combined Mass Drug Administration on February 28 - March 1, 2019.

Thus, may we invite **Ms. Isabel Chavez, Christina Capistrano, Michelle Pabelic** to the said activity.

Meals and snacks will be provided by DOH CHDNM. Program starts at 9:00 o'clock in the morning on February 28, 2019.

For more queries, Ma. Rachel D. Escatron 09063341088 and Joan Hugo 09176291551 of the Vector Borne Disease Section of DOH ROX.

Thank you for your continued support to all these collaborative endeavours. God bless us all!

Very truly yours,

NIMFA B. TORRIZO, MD, MPH
