Schools Division Superintendent  
Department of Education-Cagayan de Oro Division  
Masterson Ave., Upper Carmen, Cagayan de Oro City

Dear Dr. dela Peña:

The University of Science and Technology of Southern Philippines – Cagayan de Oro (USTP CDO) will hold its **2<sup>nd</sup> Innovation Summit on March 28-29, 2019 at SM CDO Downtown Premier**. The two-day event centers around the theme, “*#USTPinnovation: The Game Changer for Sustainable Northern Mindanao*”. It will gather researching academics from various institutions, investors, industry senior executives, and entrepreneurs all over Northern Mindanao where some of them will speak on real insights into exploring current opportunities and challenges of leading technologies.

The event will showcase the research and extension service outputs of USTP faculty and students in the areas of **Power and Energy, Food Technology, and ICT as well as products and services of various startups from the USTP Digital Incubation Hub**. Some local startup talents will pitch their technological and innovative ideas through research innovations, software development, multimedia creations and computer graphics.

Another highlight of the event is the grand launching of the Center for Technology Solutions and Automation and the signing of Memorandum of Agreement between USTP and potential industry partners. As such, each participant will benefit from a gamut of opinions, strategies and new approaches on how best they can implement strategies and potential solutions to certain issues and concerns.

Corollary to this, **we are cordially inviting you with your STEM and TVL Teachers and 45 Senior High students from each school offering STEM and TVL to join us and be part of this trailblazing event.**

Kindly confirm your participation not later than March 25, 2019 to the Innovation and Technology Solutions Office. You may contact the Office using the following details: [ustpinnovationsummit@gmail.com](mailto:ustpinnovationsummit@gmail.com) or (088) 856-1738 loc. 160.

Respectfully yours,

AMBROSIO B. CULTURA II, PhD  
Vice-Chancellor for Research and Innovation
