 Medical Officer

Dear **Superintendent Dela Peña:**

Warm greetings!

Lymphatic filariasis continues to be a major source of permanent disability and an impediment to socio-economic development in 73 countries where more than 1 billion people are at risk and over 120 million are infected. *Wuchereria bancrofti* is responsible for approximately 90% of infections (World Health Organization)

On the other hand, the city of Cagayan de Oro has been declared Filariasis Free in 2014. As part of ongoing surveillance of Lymphatic Filariasis, the 3<sup>rd</sup> Transmission Assessment Survey (TAS3) has to be undertaken again by the city of Cagayan de Oro with 3 113 school children age 6-7 years old as subjects to determine whether or not recrudescence has occurred.

Moreover, attached herewith are the list of schools that TAS3 will be conducted anytime in October 2019.

For more queries, please contact Ms. Perla Sanchez at 09177184756 and Ms. Ma Rachel D. Escatron at 09063341088 of the Vector Borne Section.

Thank you for your continued support to all these collaborative endeavors. God bless us all.

Very truly yours,

**DR. ADRIANO P. SUBA-AN, CESO IV**
