Division of Cagayan de Oro  
Department of Education X  
Mastersons Ave., Cagayan de Oro City

Dear Dr. Dela Peña:

In relation to the 30<sup>th</sup> National Statistics Month celebration, the Philippine Statistics Authority X (PSA-X) will be holding its first Northern Mindanao Data Festival with the theme "Bringing Statistics Closer to the People" on 29 October 2019 at Mallberry Suites Business Hotel, Cagayan de Oro City. The Data Festival is a one-day event consisting of various presentations, open discussions and games. It aims to instill appreciation and enhance statistical literacy among students; enjoy the academe in the advocacy of statistics; strengthen partnerships and foster collaboration with other government offices; and promote proper interpretation and use of statistics among data users.

One of the breakout sessions during the said activity is the session on career orientation for students. This session provides career development guidance designed to prepare the students to better understand career opportunities and to assist them in making meaningful and informed career choices in the field of statistics. Statistical games will also be conducted during the event to increase self-esteem and mental alertness of every participant and to facilitate learning of statistics in a fun and interactive way.

In this connection, we would like to invite senior high school students under the STEM curriculum with their class advisers to participate in this activity. We would like to request for your assistance in inviting Cagayan de Oro schools with STEM curriculum who may participate in this activity. We have allotted 60 slots for the senior high school students.

For questions or clarifications regarding this invitation, please call us at (088)856-4778 or 0956-522-2575 and look for Ms. Genelyn S. Belaca-ol. We are hoping to receive the list of confirmed participating schools by 24 October 2019. We are looking forward for the participation of our students, our future data analysts and statisticians.

Truly yours,
