Aug. 2, 2021

DR. ALICIA E. ANGHAY
Officer in Charge of the Schools Division Superintendent
Schools Division Office– Cagayan de Oro
Department of Education

Dear Dr. Anghay,

Good day! Pinas Forward is currently delivering a series of Formation Webinars that aims to empower the Filipino youth to dream for a better Philippines through the power of connectivity. Our diverse network includes academic institutions, public and private organizations, and local government units. Since 2018, we were able to conduct **838 training sessions in 600 institutions** inspiring young leaders to help communities in need.

As part of its goal to build a nation led by a new generation of leaders who are inspiring, intelligent, digitally aware, and driven towards positive change, Pinas Forward is conducting a free webinar titled **E-ligtas: Blocking the Dangers of the Online World** this **August 20, 2021, at 6:00-8:00 P.M.** via Facebook Live. The webinar aims to help Filipinos recognize potentially unsafe, dangerous, or risky online situations & behaviours and equip them with the knowledge they need to combat these threats.

The webinar will also tackle teenage pregnancy brought about by dangerous online activities & irresponsible/uninformed dating app usage; victims of cyberbullying, dealing with poser accounts & catfishing. **This is in light of the recently enacted Executive Order 141 by President Rodrigo Roa Duterte, where it prioritizes implementation measures in addressing the root causes of the rising number of teenage pregnancies in the country.** Pinas Forward believes that by spreading awareness on these threats, how they might present, and what actions to take when a threat is identified, we are not only protecting our audience but also the most vulnerable links in the chain such as children and minors, among others.

As such, we are inviting your office as one of our partner together with the City Scholarship Office of Cagayan de Oro by allowing our teachers and and parents in Cagayan de Oro to become digital guardians and digital parents by joining the said activity.

E-ligtas: Blocking the Dangers of the Online World Webinar Brief

Show Description and Objectives

As part of its goal to build a *nation led by a new generation of leaders who are inspiring, intelligent, digitally aware, and driven towards positive change*, Pinas Forward is conducting a webinar entitled **E-ligtas: Blocking the Dangers of the Online World** this **August 20, 2021**, at **6:00-8:00 P.M.** via Facebook Live.

Because of the restrictions brought by the pandemic, people have been relying on the internet more than ever to seek new ways to connect and access information. However, this growing reliance on the internet also gives people with ill intentions more opportunities to take advantage of us. This is a concern that we cannot ignore as nation-builders.

The E-ligtas webinar aims to help Filipinos **recognize potentially unsafe, dangerous, or risky online situations & behaviours and equip them with the knowledge they need to combat these threats.**

Pinas Forward believes that by spreading awareness on these threats, how they might present, and what actions to take when a threat is identified, we are not only protecting our audience but also the most vulnerable links in the chain such as children and minors, among others.

The webinar will be held for free. It is open to all, especially to students, parents, and teachers.

Program Flow

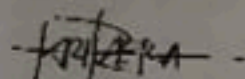

- **SEGMENT 1: Talks**
