Assistant Secretary
Alternative Learning System

Subject : TRAINING-WORKSHOP ON OPERATIONALIZING
THE ALS MONITORING AND EVALUATION SYSTEM

Date : May 23, 2022

The need to strengthen the Alternative Learning System Monitoring and Evaluation (ALS M&E) System was identified as a key enabling support in the implementation of DepEd's second chance education program. With support from the United States Agency for International Development (USAID) through the Opportunity 2.0 (O2) project, an enhanced M&E System was developed to support the ALS program innovations and scale up. This includes the M&E framework, protocols, tools, reporting system and capacity building program in support of an enhanced ALS M&E System for all levels of governance of the DepEd. The ALS M&E System was presented last January 2022, during one of the joint Execom - Mancom meeting.

This Office through the Bureau of Alternative Education (BAE) in partnership with the Southeast Asian Minister of Education Organization Regional Center for Educational Innovation and Technology (SEAMEO INNOTECH), through USAID's O2 project, will conduct a five-day face-to-face training-workshop on operationalizing the ALS M&E System on June 13-17, 2022, at Microtel, UP Techno Hub, Commonwealth Avenue, Quezon City.

This activity aims to:

1. Discuss the scope, key features, and requirements of the ALS M&E System and Development Plan;
2. Describe the process of establishing the ALS Baseline Situation in the Schools Division to include in identifying the data needed to establish a baseline of out-of-school children in special cases, youth, and adults, interested in adult education in the province or city;
3. Describe the tracking process, performance measures, and requirements for doing progress monitoring in the Schools Division, Regional, and Central Offices;

4. Explain the activities involved in documenting the success of ALS and Community Learning Centers (CLCs) and its importance to out-of-school children in special cases, youth, adults, and communities;
5. Design a mechanism for tracking ALS completers' location;
6. Discuss the activities and requirements for initiating the M&E System in all governance levels; and
7. Agree on the pilot implementation plan including the selection of areas for the pilot implementation of the system.

In this connection, the following members of the M&E TWG and select BAE personnel are hereby enjoined to participate in this five-day workshop:
