REGIONAL MEMORANDUM

No. 260, s. 2022

SEAMEO INNOTECH'S NATIONWIDE OPT-IN ONLINE SURVEY FROM MARCH TO APRIL 2022 ON THE DISSEMINATION OF THE MOBILE TECHNOLOGY FOR TEACHERS RESOURCE KIT

To: Schools Division Superintendents
 Others Concerned

1. The SEAMEO INNOTECH is conducting an opt-in online survey among public school teachers from March to April 2022, which intends to gather data in support of the wider dissemination of the Mobile Technology for Teachers (MT4T) Resource Kit. The MT4T is a set of knowledge products that promote the use of smartphones, tablets, and similar handheld devices for teaching, learning, and professional development of teachers.

2. The opt-in online survey will be administered using Google Forms and disseminated through social media and email. Participants of this survey are the teachers. The following slots are the allocation per Schools Divisions Office (SDO).

SDOs		No of Teachers
1	Bukidnon	25
2	Cagayan de Oro City	15
3	Camiguin	10
4	El Salvador City	10
5	Gingoog City	15
6	Iligan City	15
7	Lanao del Norte	15
8	Malaybalay City	15
9	Misamis Occidental	15
10	Misamis Oriental	15
11	Oroquieta City	10
12	Ozamis City	15
13	Tangub City	10
14	Valencia City	15
		200

3. Each SDO is reminded that in the conduct of the survey, the highest ethical standards in research, such as but not limited to **securing the consent of all respondents and ensuring the participation in the survey is voluntary**, shall be observed.

Dear **DepEd Colleagues**:

Greetings! We hope this email finds you well.

SEAMEO INNOTECH is kindly requesting your assistance in disseminating the MT4T survey form to teachers in your respective regions.

Teachers may answer the survey through the following link:**https://bit.ly/MT4T_Mindanao****until 11:59PM of APRIL 29, 2022**

The results of the survey are intended to support the dissemination efforts for the Mobile Technologies for Teachers (MT4T) resource kit. MT4T is a set of FREE knowledge products that promote the use of smartphones, tablets, and other similar handheld devices for teaching, learning, and professional development of teachers. The resource kit is available at www.seameo-innotech.org/mt4t.

Every teacher who completes the survey will earn one raffle entry for a chance to win a brand-new SAMSUNG GALAXY TABLET A7 LITE and other exciting prizes. For more details, please check out our

Facebook page: www.facebook.com/SEAMEOINNOTECH.

MT4T Nationwide Survey

April to May 2022

RAFFLE: Winners will be announced after the survey period.

1 WINNER OF A
TABLET COMPUTER

4 WINNERS OF PHP 1,500 GCASH
AND INNOTECH MERCH

www.seameo-innotech.org
 @SEAMEOINNOTECH

Raffle Mechanics

Answer the MT4T survey to get a chance to win a tablet computer and other exciting prizes!

1. The raffle is open to all Philippine teachers who complete the MT4T survey within the period designated for their school locations.
2. All valid responses shall automatically earn one (1) raffle entry, but multiple survey responses from the same person will not earn additional entries.
3. The raffle period is concurrent with that of the MT4T survey rollout. The grand draw will be in the week of May 23 to 27, 2022.
4. The winners will be randomly picked via electronic raffle draw under the supervision of the SEAMEO INNOTECH project team.
5. In-kind prizes are not convertible to cash.
6. The winners will be announced through the SEAMEO INNOTECH Facebook page. We will get in touch with the winners regarding their prizes.
7. The decision of the project team as to the winners shall be final and irrevocable.

For questions or concerns, please send us a message on Facebook or email us at info@seameo-innotech.org.

www.seameo-innotech.org
 @SEAMEOINNOTECH

Also, attached to this email are copies of the official DepEd endorsement of the survey and the information note. Should you have any questions, please do not hesitate to send us back an email.

Many thanks! We look forward to your full support and active involvement in this initiative.

Best regards,
MT4T Team

INFORMATION NOTE

Nationwide Opt-in Online Survey on the Mobile Technology for Teachers (MT4T) Resource Kit

April to May 2022

Background and Rationale

The MT4T resource kit has been developed to help bridge the gap between teachers who are digital migrants and students who are digital natives. As such, the resource kit is designed to help teachers use and take advantage of technology to support and improve the teaching and learning process, while assisting students in developing higher order thinking skills at the same time. Beyond that, teachers will also find helpful insights and tips on how to leverage technology for their personal and professional development. While technology is a promising feature of 21st century education, it comes not without any risk or threat to the safety and well-being of both teachers and students. In this regard, the resource kit also includes an e-book and a set of teaching materials on digital citizenship and cyber wellness to capacitate teachers in guiding learners to be safe, responsible, and productive online.

It is readily an accepted fact that students use the internet more than most adults – be it for making their learning more holistic, for mere leisure, for keeping in touch, or for doing a mix of all. Given the rapid technological development over the past few years, it becomes imperative that teachers and even school administrators are sufficiently equipped with technological know-how to appropriately guide and nurture the new generation of learners. The need to adapt and to continuously innovate becomes even more critical as we enter a new age of education where information and communication technology (ICT) can make education more accessible – more so in the time of a pandemic.

The MT4T resource kit has the potential to provide educators more confidence in using technology for education as they brave the “new normal.” By assisting them in learning how to take advantage of the potential of technology, teachers will be put in a more conducive position to help deliver the promise of quality and accessible education, especially in these challenging times.

There is a unique opportunity now to amplify the core message of MT4T and get the resources in the hands of those who are intended to benefit from them. However, to expand the reach of the MT4T resource kit, it is crucial to first learn and understand how to best communicate with our target audience. Ultimately, the nationwide survey is meant to provide data and evidence-based insights that will support the wider dissemination of MT4T resource kit and its flagship e-book on digital citizenship.

Objectives

The nationwide survey seeks to achieve the following goals:

- to build profiles of Philippine teachers based on their individual personalities, behaviors, and motivations related to technology use;
- to identify advantages of and challenges in using the MT4T resource kit; and

- to draw data-driven insights that will support the communication and dissemination strategies for the MT4T resource kit.

Methodology

The opt-in online survey consists of five major parts designed to collect data on the participants' (1) basic demographic information, (2) motivation, (3) personality, (4) technology use, and (5) familiarity with the MT4T resource kit. It should take around 15 minutes to complete the survey.

The survey will be administered by batches using Google Forms. However, a Google account will not be required to participate. The link will be disseminated to the target participants through social media and email.

Participants from each batch will be given a week to accomplish the online survey. Any concerns or questions about the survey may be sent via email at info@seameo-innotech.org or through the SEAMEO INNOTECH Facebook page at <https://www.facebook.com/SEAMEOINNOTECH>.

Target Participants and Schedule

Public school teachers of every grade level in basic education from all regions of the country are invited to participate in the survey. The survey will be conducted in 4 batches following the indicative schedule below.

Batch		Schedule
1	NCR and Luzon	April 04 to 08, 2022
2	Visayas	April 18 to 22, 2022
3	Mindanao	April 25 to 29, 2022
4	Open call to all teachers	May 02 to 06, 2022

More details on the survey roll-out will be made available on SEAMEO INNOTECH Facebook page

Raffle

All participating teachers will each have 1 raffle entry for a chance to win a tablet computer and other prizes. Winners will be announced on the SEAMEO INNOTECH Facebook page at the end of the survey period.

More details on the raffle and survey roll-out will be made available on SEAMEO INNOTECH Facebook page.

SUBJECT : **SEAMEO INNOTECH'S NATIONWIDE OPT-IN ONLINE
SURVEY FROM MARCH TO APRIL 2022 ON THE
DISSEMINATION OF THE MOBILE TECHNOLOGY FOR
TEACHERS RESOURCE KIT**

DATE : 28 March 2022

This is with reference to the letter dated 11 February 2022 to this Office from Ramon C. Bacani, Center Director of the SEAMEO INNOTECH, regarding their request for our endorsement of the Center's nationwide opt-in online survey among public school teachers from March to April 2022, which intends to gather data in support of the wider dissemination of the Mobile Technology for Teachers (MT4T) Resource Kit. The MT4T is a set of knowledge products that promote the use of smartphones, tablets, and similar handheld devices for teaching, learning, and professional development of teachers.

The opt-in online survey will be administered using Google Forms and disseminated through social media and email. Around 100 to 200 teacher-participants from each of the 17 regions are required to ensure a representative sample. Upon formal endorsement, the study team will also reach out to the DepEd Regional Offices to enlist their assistance in disseminating the survey.

We hereby endorse the said request to all DepEd Regional Offices for appropriate action. Please be reminded that in the conduct of the survey, the highest ethical standards in research,

such as but not limited to **securing the consent of all respondents and ensuring the participation in the survey is voluntary**, shall be observed.

For further queries, you may directly contact **Mr. Benedict Santos**, Information Management Unit, SEAMEO Innotech, through his email: benedict@seameo-innotech.org.

Attached herewith is the letter from SEAMEO INNOTECH Center Director Bacani, along with the Information Note and brochures on the survey, **for your appropriate action**.

Thank you very much.
