1. The Department of Education (DepEd), through the Bureau of Learner Support Services - School Health Division (BLSS-SHD), adopted in 2018 the Integrated School Nutrition Model (ISNM).
2. The ISNM integrated three major components: Bio-intensive School Gardens, which are *Gulayan sa Paaralan* Program (GPP); gardens enhanced using ecological gardening practices to improve productivity and sustainability; and School-Based Feeding Program (SBFP), which uses Iron-fortified and indigenous vegetables from school gardens to feed undernourished Kinder to Grade 6 learners.
3. Hence, the Office directs the utilization of the IEC Materials as a supplementary advocacy to the Integrated School Nutrition Model (ISNM), which uses the combination of learning strategies and promotes the importance of nutrient-dense food, good eating habits, and increased consumption of fruits and vegetables to the learners and parents.
